

Let your leak detection van guide you to the leaks!

Leak detection van With incorporated office compartment and wet room

Description

When on the road, you can be sure that you have all the necessary equipment for managing and maintaining your pipe network at hand with a SebaKMT leak detection van. You can transport high-quality measuring equipment such as correlators, listening equipment, noise loggers, line location equipment, etc. quickly, effectively and correctly.

The van is divided into two sections. The front area accommodates the SebaKMT "Mobile Office". This contains all the main features that you need to work efficiently and in comfort while on the road – from seating, work surfaces & a wardrobe through to drawers and cupboards. An additional battery, both modern and powerful, ensures that all your equipment has an independent power supply. In the rear of the vehicle, the so-called wet room, the emphasis is on safety and ergonomics. This section contains shelving with drawers and cupboards to store equipment and tools securely and accessibly.

Project

Reducing non-revenue-water in the City of Benguela (Angola) and surrounding areas. Intensive training was carried out in Angola and Germany as capacity development of the local water utility company.

Quantity

1 van full equipped with leak detection instruments in 2010

Customer

Empresa de Águas e Saneamento de Benguela,
Angola
